

# Success Mapping

- Simplify Your Most Challenging Processes
- Visually Identify Workflow Bottlenecks
- Edit and Publish Your Processes on the Fly
- Use Sandboxes to Edit and Test New or Refined Processes

## State Based Process Mapping

**The Easier to Understand, Faster to Map and Easier to Deploy Approach to Simplifying Even the Most Complicated Business Processes**

Success Mapping is a key feature of the Arrayworks platform, providing a simple visual tool for you to:

- Map processes
- Manage outcomes
- Attach documents
- Auto create tasks, emails & alerts at any stage
- Set triggers to automatically launch actions based upon desired outcomes

Go beyond basic workflow with state based mapping that auto-generates metrics and deep insights into every step in the process.

Workflowpedia™ is the repository of Success Maps, providing best practice frameworks to build the best possible processes and make them actionable.

# Workflowpedia™

Workflowpedia™ is a game-changing tool that can transform your business into an extraordinary enterprise, empowered with the software to monitor, control, improve and succeed.

“Productivity and quality improvement is a race without a finish line. Your organization’s future will be determined by how well and how quickly you learn, adapt, and improve.”

**Jack Grayson, Founder & Executive Chairman, APQC**

## Lower the Risk of Failed Projects by Engaging Your Workforce

Lack of buy-in from those involved with the actual work can doom your projects to failure even before you implement them.

Arrayworks platform allows those performing the work to share their knowledge of how the work actually gets done, how it could be done better, and how that translates to process design.

Drill down through more than 1,000 proven business processes and activities classified by organizations like the American Productivity & Quality Center (APQC), Six Sigma, Industry Specific, or your own best practices to implement solutions throughout your entire enterprise.

“Arrayworks provides a democratic platform... and by that I mean everyone here has a say and a vote.”

**Greg Large, Managing Partner, Lenox Advisors**
